

WE ARE NOT YOUR STANDARD WAREHOUSE

THE CHALLENGE

WAREHOUSING & LOGISTICS SUCCESS STORY

To provide warehousing, fulfillment, assembly, inventory management, logistics, and installation services for a new large scale rollout to key Bauer clients across North America.

OUR SERVICES

- 1. Shipping – Receiving:** Prepared shipments of shop-in-shop fixtures across North America. Our team worked to coordinate deliveries with store managers and coordinate pickups/drops with carriers while operating on tight timelines. Our team operated on tight timelines. Excellent communication and advance preparation was key to the success of the project.
- 2. Fulfillment:** Managed and prepared the client's inventory from start to finish - from custom pick and pack order to full range shipping methods.
- 3. Assembly:** Created a wide variety of assembly instructions to simplify the installation process. Preassembled large fixtures (pre-ship) that required detailed assembly.
- 4. Logistics:** Utilized our warehouse for product storage, prepared shipments for delivery to retailers, and integrated Bauer's data into our ERP systems in order to ship and track all orders on a real-time basis.
- 5. Installation:** Managed and executed pre-Installation inspections and installation in stores across North America.

THE RESULT

Cost Effective: Stayed below the client's budget.

Account Management: Provided weekly reports, updates, and excellent communication throughout the project.

Technology: Implemented technology to allow real-time access on all inventory items.

Installation: Precise management of the high volume installation allowed tight deadlines to be met.

Error Free: 99.5% execution rate across all functions.
