

WE ARE NOT YOUR STANDARD WAREHOUSE

THE CHALLENGE

WAREHOUSING & LOGISTICS SUCCESS STORY

Off-shore produced fixtures to be fulfilled on a high-volume basis across North America. Each direct-to-consumer location required specific delivery requirements within a tight timeframe. Vans needed a reliable logistics partner to navigate through warehousing, fulfillment, assembly, shipping, and installation.

OUR SERVICES

- 1. Ocean Freight Receiving:** Planning and coordinating incoming fixtures from off-shore suppliers.
- 2. Fulfillment:** Establish customized 3PL services including special barcoding, pick and pack, inventory management, data tracking, and unique client reporting.
- 3. Logistics:** Manage all communication between Vans, shipping partners, GC's, and store managers for execution.
- 4. Installation:** Created detailed installation instructions for the project. Installed and assembled custom fixtures and accessories.

THE RESULT

- 1. Project Management:** Enhanced overall communication by providing a dedicated team to the Vans account. The CGA team provided 24/7 support.
- 2. Technology:** Created greater visibility and management of project metrics and related data utilizing our online portal.
- 3. Cost Effective:** Used existing CGA technology and implemented solutions which kept us within budget and improved speed to market.
